

ДОБРО ПОЖАЛОВАТЬ ВО ВСЕЛЕННУЮ ДИНОЗАВРОВ!

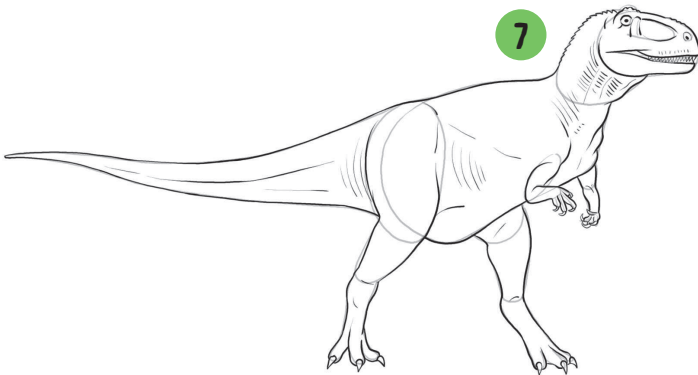

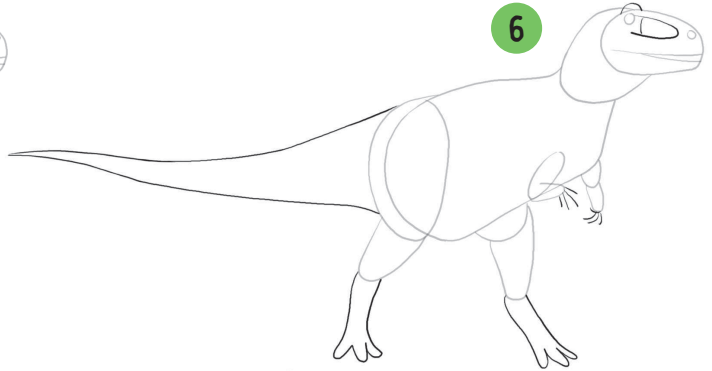

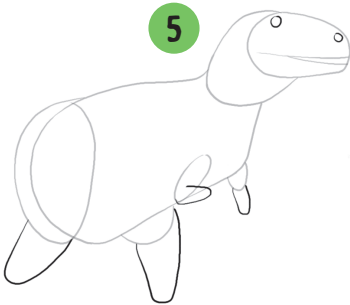

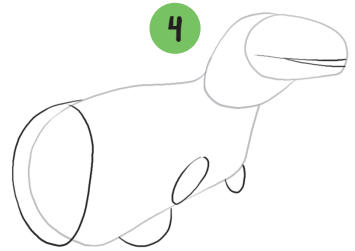

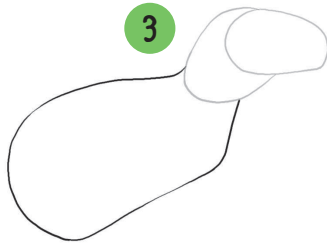

Хотя динозавры и вымерли давным-давно, они по-прежнему занимают умы людей по всему миру. Эта книга научит тебя отличать абелизавра от зупайзавра и позволит узнать получше тираннозавра и велоцираптора! С перьями или чешуёй, когтями или рогами, динозавры — отличные модели для совершенствования в искусстве рисования. Но учти: чтобы шаг за шагом воссоздать этих замечательных животных, понадобятся точность и терпение.

Вперёд, к увлекательному рисованию!
